Apply by April 26th

Future Transport Visions Group

FTVG is an 12-month research and development competition funded by the Rees Jeffreys Road Fund that encourages early career professionals across the transport industry to explore the challenges and opportunities posed by ongoing changes in the world around them.

It is specifically targeted at people with fewer than ten years' experience in the transport sector to collaborate in teams from multiple organisations.

It provides a route to funding, mentoring and support in delivering research projects, enabling emerging professionals to unlock new ideas and deliver new tools for the benefit of the wider sector.
